

## Driving To The Rosarito Beach Hotel

The Rosarito Beach Hotel is an easy 20 minute drive from the San Diego border crossing. Take either the 5 south or 805 south until you get to the border. Once you cross into Mexico, move over to the right lane and look for the signs that read "Rosarito Ensenada Scenic Road". You will exit to the right and head west towards the ocean. You will stay on this road for about a mile and then go up and over a large hill. Once you get to the bottom of the hill, exit to the right and merge into the left lane and continue to head west. This will take you to the toll road which is the start of Mexico Highway 1. The toll road is well maintained and also a very scenic drive along the Baja coast! You will stay on the toll road for about 15 miles until the road turns inland. This is the northern end of Rosarito Beach. The easiest way to get to the hotel is by taking the fourth Rosarito exit, which is easily identified by the arch. Once you take the exit, you will drive two blocks west until you reach Benito Juarez Boulevard. You will see the hotel directly in front of you. Take a right and an immediate left and you have arrived at the hotel!
